

Perfect Match Gel Polish for Natural Nails.

This revolutionary, quick-and-easy gel polish cuts the service time in half and will give a deep sleek finish without chips, smudges, or drying time. The color is long-lasting and chip-resistant. Nails will look flawless for weeks and stay as perfect as day one.

What is Perfect Match Gel Polish?

Unlike a traditional nail polish, Perfect Match Gel Polish is painted on with a brush and each layer is “cured” under a UV light to dry.

What are the benefits?

- Dry time: The UV light dries the polish within minutes which means no dry time, no smudging, no dents. Talk about the perfect manicure and pedicure choice
- Long lasting: Perfect Match Gel Polish lasts from 2-3 weeks with no chipping.
- Less damaging: Unlike traditional enhancements you don't have to fear the drills or filing down of your nails.
- Works on natural nails: Perfect Match Gel Polish can be used over a natural nail like traditional polish.
- You can layer polish on top: If you want to change your color mid-manicure or pedicure, you can. paint right over the Perfect Match Gel Polish with it's matching nail polish and remove it with non-acetone remover.
